

FRAAI WERK

# INDUSTRIAL DESIGN INTERN WANTED

**Light does more than illuminate. It bends, reflects and adapts to its surroundings. Its power to change is almost unlimited. Like the light that we craft and shape, at Fraai werk our greatest strength is our flexibility. We offer custom lights and lighting, providing holistic solutions for our customers. From single lampshades, right through to lighting plans for entire buildings and environments. Rethinking light to reach the right solution.**

## **STUDIO DESCRIPTION**

Our second collection was launched at the Salone del Mobile in Milan this year. We are currently looking for someone who will work on the production phase of this design. This involves detailing crucial parts of the product in CAD and getting it produced.

Apart from that, you will contribute to the design of a brand new installation for the 2018 Salone del Mobile exhibition!

## **WHAT WE OFFER**

We offer you the opportunity to contribute to the realization of a design. The final product will be added to the portfolio of an international design label. In this process you will learn to ask the right questions, make choices based on a real budget. This means acquiring experience that is exceedingly valuable to you as a product designer.

**Are you motivated and interested?  
Send us your resumé and portfolio!  
info@fraai-werk.nl**

## **YOUR PROFILE**

You are a student who can collaborate, think conceptually and visualize your stories but can also be pragmatic. You are able to make both digital and physical prototypes. For the road towards the Salone in Milan you can work under time pressure and build the exhibition on site with us. Furthermore, you have the following skills:

- Finished HBO or MSc. student industrial design
- Interest in lighting design
- Experience with SolidWorks modelling
- Adobe Ps, Ai and Id
- basic craftsman tool experience to build things

## **DURATION**

The internship will take about 3-6 months. Both the start date and exact duration can be determined together.
