

VACANCY DESIGNER

Designer

THE JOB

Are you passionate about creating and modelling innovative pieces of engineering? Are you technically minded and want to collaborate with engineers to deliver practical solutions to technical problems? Then we are looking for you!

As a Designer, together with our Engineers, you are responsible for creating design concepts – the first step in which an idea begins to take shape. You are further responsible for the independent setup of models and drawings – to develop the concepts into detailed designs and convey how they should be built and used. You offer valuable input to the project team in the conceptualization and development of a design, shaping engineering challenges to functional designs. A TWD Designer typically works on a wide range of projects and fills an important role within the project team, being responsible for different design aspects such as generating 2D/3D modeling. This is why we are looking for true team players with real dedication that can also work with independence when required.

JOB REQUIREMENTS

- You have or will soon obtain a Bachelor or Master's degree in a technical field
- You are a fresh graduate or you have several years of drafting/design experience
- Skilled in using relevant drafting tools (Inventor and/or AutoCAD – both 3D and 2D)
- Solid understanding of technical know-how
- Good English language skills (a prerequisite due to the international nature of our work floor)

WORK ENVIRONMENT

Working at TWD means working in a friendly environment amongst creative, talented and ambitious people. You work in a young, yet professional team where you are offered possibilities to develop yourself while working on challenging and interesting projects. Your job is varied and you are involved from design to execution, in major installation projects of diverse leading (offshore) contractors. We work hard to deliver quality and finish projects in time, but there is also time to have coffee and lunch together and to enjoy fun group activities on a regular basis.

Are you ...

Then we are definitely looking for you!

Please send your letter of motivation and CV to hr@twd.nl or contact HR via [+31 10 294 03 74](tel:+31102940374)
